- IPL Special to blitz away unwanted hair
- See us on Facebook and win!
- Winter Indulgence Treats to de-stress your back and rejuvenate your skin

Welcome to SkinSense

Come on in and leave winter outside
Our skin is like our best friend. Weighing approximately nine pounds it sees us through hot and cold, forgives us when we accidentally inflict a minor scratch and generally is flexible, giving and holds us together nicely! Above all we wear it every day so it's worth looking after. Regular professional treatments will address, maintain and improve all skin conditions. Another way to ensure you treat it well is with a sustained customised skincare home regime, right from cleanser and moisturiser to a conditioning exfoliant to slough off dead skin cells. Your home regime is as important to your skin maintenance as our professional treatments are.

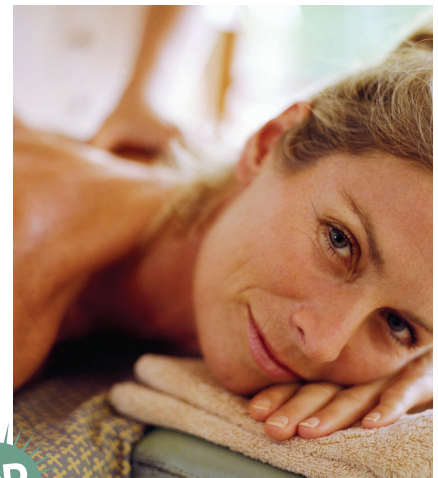

A must this winter is the Fleur de Mer 20% Vitamin C Serum. This non-oily serum is known to neutralise free radicals giving you a line of defense against environmental ageing. It's also a vital component in collagen production and has a brightening effect on your complexion. Every skin type can benefit from Vitamin C all year round.

Keep warm and well this winter.

Susan & the SkinSense Team

WINTER INDULGENCES FROM US TO YOU!

Take away the Chill with our new Red Hot Deals!

Your Winter Facial Makeover \$99

A luxurious one hour facial treatment to get your winter skin feeling fabulous! Your treatment begins with an AHA and Lactic peel followed by a Non-Surgical Facelift. A deeply hydrating cocoa rubber mask is then applied, not to mention a complimentary brow shape. What a treat!

Your Winter Stress Buster \$69

Evaporate stress and give those tight, tired shoulders a pampering. A warm salt scrub on dry skin is followed by a relaxing hot stone back massage. Next a detoxifying body wrap is applied before a rich nourishing body crème ensures your back is feeling and looking amazing!

**SO WHICH ONE WILL YOU PICK?
OR, AT SUCH GREAT PRICES, WHY NOT COMBINE BOTH!**

Id Bare Minerals

Buy one, get one half price!

Id bare minerals make up has been discontinued (unfortunately) in NZ and Australia but the good news is we've got lots of stock and there has never been a better time to stock up and save \$\$\$.

12 MONTHS OF PAMPERING!

How about 12 months of pampering! Enjoy a Marine Experience Facial and Eye Brow Shape each month for 1 year. **The ultimate gift experience \$950 (value \$1428)**

FACEBOOK

First 50 to 'Like' us and Join us on Facebook will receive a **FREE** eyelash tint with their next treatment!

MICRODERMABRASION

Do you want to achieve beautiful smooth looking skin? Then here's what you need to know...

Microdermabrasion will gently abrade away old dead skin cells and blackheads, aiding oily / blemished skin and scarring. The overall effect is wonderfully smoother and brighter skin. Each treatment takes just 40 minutes and includes a calming and hydrating Algologie treatment mask.

While best results come from a course of treatments, even after just three sessions you'll notice your skin looking radiantly gorgeous.

Microdermabrasion is particularly beneficial prior to IPL photo-rejuvenation or Collagen Induction Therapy. **\$199 for three (save \$131)**

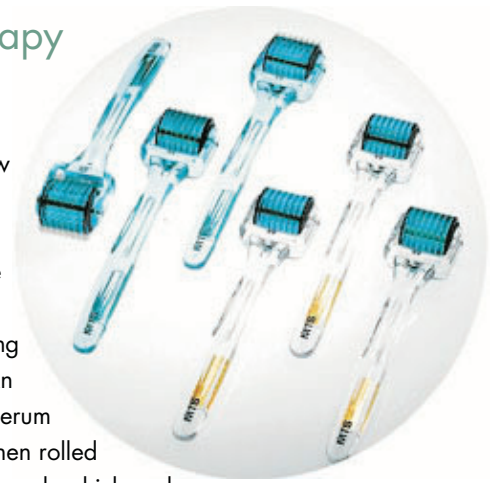

Collagen Induction Therapy

Roll away age and get started with CIT today!

Collagen induction therapy stimulates new collagen production in the skin which creates a firmer, youthful appearance.

The treatment begins with a cleanse, tone and application of a topical numbing cream to dull the sensation while providing a deep, beneficial relaxing treatment. An advanced anti-ageing or pigmentation serum is applied to the skin. An MTS roller is then rolled over the skin creating important microchannels which push

the products deeper into the skin and stimulate the cells that produce collagen and elastin. The creation of these microchannels allows the skin to absorb up to 300 percent more product, enhancing its effectiveness and producing more benefits to target your concerns. Strengthen up weakened skin, improve the appearance of fine lines and wrinkles while having fast healing with no down time. A 12 week course of one treatment every two weeks is recommended and you'll be amazed by the results! Enquire with any of our experienced therapists today.

MTS-ROLLER

Collagen Induction Therapy is ideal for:

- Fine lines and wrinkles
- Slackened skin
- Acne scarring
- Enlarged pores
- Uneven skin tone

First treatment \$249
Subsequent treatments \$149

Purchase a course of 6 treatments for just \$745

Get started and roll away those fine lines, wrinkles and scars for a youthful complexion!

\$499 for 5 bikini or underarm treatments
OR
Full Face Photo Rejuvenation for \$299!

LYCOGEL

Did you know that Lycogel is the first breathable colour corrective treatment that combines cosmetic and skincare technology to promote and support post procedure healing, soothe sensitive skin, rejuvenate and camouflage at the same time. **Breathable Camouflage** was originally developed to be used by doctors immediately after most cosmetic procedures to camouflage the sign of their intervention and promote a quick and comfortable recovery. Since then the benefits of our unique formula have been discovered by many and found suitable for use as an everyday, skin improving camouflage.
